

EASY Investment Forum, Milan 25th -26th February 2008

After three successful events in 2007 (Paris, Helsinki and Estoril), the first **EASY Investment Forum of 2008** will be held in **Milan, Italy**. This important cross- border event aimed at the early stage investment market is being hosted by **META Group** with **AIFI** (Italian Private Equity and Venture Capital Association) and **IBAN** (Italian Business Angels Network Association) representing an **exciting opportunity for both investors and entrepreneurs**.

This event offers business angels, seed funds and early stage VC funds from across Europe the chance to identify investment opportunities in 22 selected European companies representing the following four sectors:

- **Med-tech and Healthcare** (technologies and service applications for health and medicine)
- **Design** (products across all sectors which focus on design)
- **Transportation and logistics** (technologies and service applications)
- **Cleantech** (environment and energy technologies)

During the event, in addition to the "Pitching Session" a parallel session (Investment Marketplace Exhibition) has been planned, allowing 15 selected companies, not backed by Angel/Venture operators, to have available individual stands for the entire day on the 26th to meet business angels and venture capitalists from around Europe.

For more information and application deadlines, please visit the EASY website at: www.earlystageinvestors.org
